OmniDry Flexidry Wall Drying System

EXCLUSIVE!

The Flexidry comes with eight reinforced openings that are spaced 16" apart to match stud cavities. The 3/4" hose barb and rubber hoses are user replaceable, and can be customized to fit the particular drying situation. One Flexidry covers an 8-foot section of wall, and you can connect up to five Flexidry's for runs down long hallways or walls. The Flexidry can even bend around corners. The universal cinch-tight opening will accept any centrifugal airmover or E-TES. The cinch-tight opening uses industrial hook 'n loop straps to cinch around the airmover opening, reducing airflow loss and keeping the Flexidry firmly locked in place. Comes with a convenient carry bag for storage and transportation.

Makita 4-1/2" 9564CV Angle Grinder

The 9564CV is engineered with Makita's innovative SJS mechanical clutch system to protect the gears for longer tool life. The 9564CV is powered by a 13 A motor with soft start for smoother start-ups. The 5-stage variable speed dial (2800 to 10500 rpm) allows the user to match the RPM to the application. The electronic limiter stops the motor and reduces accidental motor overload and burnout and the electronic speed control maintains consistent speed under load. Labyrinth construction protects the motor with a complex set of channels, prohibiting dust and contamination. In addition, the protective zig-zag varnish seals the motor and bearings from dust and debris by creating a barrier under rotation. The 9564CV is engineered with SJS mechanical clutch system, an innovation from Makita that protects the gears by automatically disengaging the motor should the grinding wheel accidentally catch or bind.

Akemi Platinum Translucent Adhesive

A special epoxyacrylate blended adhesive formulated to combine the speed of polyesters, clarity of acrylics, and strength of epoxies. It is lighter in color than standard polyesters and up to 50 percent stronger. It is also UV resistant, and it cures in under 20 minutes. It can be pigmented to match very light colors where standard polyesters are yellow, when you add the hardener.
